

ULTIMA 2007 Meeting: Achievements

- Status reports and new plans from ULTIMA-associated magnetometer arrays, including MAGDAS, Australian magnetometer networks, MACCS, Antarctic stations, McMAC, SAMBA, CARISMA, and VMO
- New ULTIMA members are elected: Mark Engebretson (permanent), Massimo Vellante (term)
- Plans established to include more magnetometer arrays in Europe, Asia, and Antarctica
- Several ideas contributed to the 2008 ULTIMA Workshop
